

Detection and management of early melanoma in 2023

HYBRID GP EDUCATION EVENING

Tuesday 14 March 2023

GPs play a vital role in the diagnosis and management of early-stage melanoma.

Melanoma Institute Australia is proud to present an evening with our multidisciplinary experts to update GPs on the latest developments in the diagnosis and management of early melanoma.

PRESENTATIONS:

- **Tips and tricks for detecting early melanoma**
- Prof Pascale Guitera (Dermatologist)
- **Practical surgery for managing early melanoma**
- A/Prof Alexander van Akkooi (Surgical Oncologist)
- **The role of radiotherapy in early melanoma**
- Prof Angela Hong (Radiation Oncologist)
- **The increasing role of systemic therapy in early melanoma** - Prof Georgina Long AO (Medical Oncologist)

The evening will conclude with an engaging case study panel discussion and Q&A led by our host **A/Prof Sydney Ch'ng (Surgical Oncologist and Chair of MIA's Education Committee)** and featuring our multidisciplinary speakers and **A/Prof Paul Fishburn (Skin Cancer GP)**.

MIA's Education Program is proudly supported through unrestricted educational grants from MSD, Bristol Myers Squibb and HEINE.
