

WAPHA LEARNING WEBINAR

Residential Aged Care Digital Tools Training Webinar series

Join us for four webinars in an engaging new training series designed to enhance your skills and knowledge of My Health Record and the electronic National Residential Medication Chart (eNRMC) in Aged Care.

Webinar 1 – Tuesday 6 May 2025

My Health Record and Aged Care: Security, Privacy and Legislation

Discover strategies for safeguarding sensitive health information in aged care, including expert guidance on data breaches, system security, resident privacy, and navigating legislation to uphold confidentiality and protection.

Webinar 2 – Tuesday 20 May 2025

My Health Record and Aged Care: Enhancing Clinical Care

Gain valuable insights into using My Health Record in aged care, including its clinical benefits, practical strategies, key documents, and actionable approaches to improve care delivery.

Webinar 3 – Tuesday 3 June 2025

My Health Record and Aged Care: How to Register

Learn how to navigate My Health Record registration for aged care providers, understand health identifiers, and take the first step to enhancing care delivery and operational efficiency.

Webinar 4 – Tuesday 10 June 2025

eNRMC and digital medication management tools

Discover how ePrescribing offers numerous benefits, including increased patient safety by reducing transcription errors, and how accessing via My Health App enhances convenience for patients through easy access to medications and prescription refills.
