

WAPHA LEARNING WEBINAR

PIP QI made simple

Understanding the 10 QI measures and using data for improvement

Join us for a practical webinar that will provide an overview of the Practice Incentives Program Quality Improvement (PIP QI) Incentive and what it means for your practice.

Webinar topics:

- An outline of the PIP QI Incentive and the components a general practice must meet to qualify.
- The 10 Quality Improvement Measures (QIMs) and why they are measured.
- How PIP QI data drives improved patient outcomes and supports population health.
- Simple, practical QI activities aligned with the QIMs to improve data quality and patient outcomes, and support PIP QI participation.
- Using practice data to drive improvement with Primary Sense and the Primary Care Reporting Portal.
